

Bachelor of Science in Civil Engineering†

Department of Civil and Architectural Engineering and Mechanics

Program Educational Objectives

- Objective 1: Technical Proficiency:** Building on fundamental knowledge, graduates should continue to develop technical skills within and across disciplines in civil engineering and/or in closely related fields.
- Objective 2: Professional Growth:** Graduates should develop and exercise their capabilities for life-long learning as a means to enhance their technical and nontechnical skills.
- Objective 3: Management Skills:** Graduates should develop and refine their knowledge and skills for management, communications, and professional ethics.
