

## University of Arizona SAE Formula and Baja Scholarship Application

Due March 12, 2010

These scholarship funds have been established with the following intentions:

- To reward current team members for their outstanding contributions to the project,
- To give SAE Formula and Baja alumni an opportunity to contribute back to the program that gave them so much, and
- To give the community a venue to express its support of such student activities.

A successful program requires those who put their heart and soul into the project and this scholarship is focused on those people.

Good academic performance in school is encouraged but a high GPA is not a requirement for these awards. However, low grades should be addressed in the application (We expect you to graduate). Financial need is not an overwhelming consideration, but it will not be overlooked. Please treat this application as you would any professional business matter—you will be judged accordingly. Please remember that one of the Award Committee members is an alumnus who has been in your situation.

Date: \_\_\_\_\_

First name: \_\_\_\_\_ Last name: \_\_\_\_\_

E-mail address: \_\_\_\_\_ Phone number: \_\_\_\_\_

Major: \_\_\_\_\_

Anticipated Year/Month of graduation: \_\_\_\_\_ / \_\_\_\_\_

How many semesters have you been on the team? \_\_\_\_\_

Formula: \_\_\_\_\_ Baja: \_\_\_\_\_

What year did you become a member of SAE? \_\_\_\_\_

SAE membership ID: \_\_\_\_\_

## Questions

Please answer to the following questions. Keep your responses to two pages (single or double spaced) and do not limit answers to the actual construction of the car. Fundraising, school tours, recruiting new members, or other such team related activities are equally important.

1. Why did you join the Formula or Baja team?
2. Which part of your activities have you enjoyed the most?
3. Which part of your activities has been the most challenging?
4. Describe a project you have worked on for the team where you did a majority of the work.
5. How do you see yourself involved in the project in the future?
6. Which skills, learned through the project, do you view to be most important in your future?
7. Provide any other important information you would like to share with the Award Committee.

Submit your application and answers to the questions in hardcopy and electronically to:
