

ENGINEERING 102 in High School

ENGR 102 HS FAQs Sheet

Is ENGR 102 HS offered at my high school?

ENGR 102 HS is a dual credit, Introduction to Engineering course taught only in participating high schools that have specially trained teachers. If your school is interested in offering an ENGR 102 HS program, contact ENGR-102HS-info@email.arizona.edu For a complete list of participating schools, check here: www.engr.arizona.edu/102highschool

Are there any pre-requisites for students to enroll in ENGR 102 HS?

Students must be a junior or senior in a participating high school and be enrolled in college algebra, or higher math.

Does ENGR 102 HS credit transfer to other colleges?

Yes, ENGR 102 HS credit is transferable to any Arizona public university or community college. If the student majors in engineering, it meets a requirement for a degree. For students who attend a private institution or out of state, ENGR 102 HS is typically counted as an elective.

How do I get my ENGR 102 HS transcript sent to my college of choice?

If you attend the UA you do not have to do anything. Your transcript is already on your official student record. To apply for transfer credit, you must request an official transcript from the University of Arizona Registrar to be sent to your institution. Follow the instructions for “former students” on the Registrar website: <https://www.registrar.arizona.edu/transcripts/>

How do I register for ENGR 102 HS?

Once you verify that your high school offers the ENGR 102 HS course, verify that you meet the pre-requisites listed above. When you add the course to your high school schedule, you will follow the steps outlined on the following website; This step is usually completed in class with your instructor:

http://www.engineering.arizona.edu/k12/k12_102_HS_enrollment

Are there UA scholarships for ENGR 102 HS tuition?

The UA College of Engineering reduces tuition by more than 75% and may not offer additional assistance each academic year. **However, for the 2024-2025 academic year, we have a limited number of need based tuition grants available.** Students who believe they may qualify for tuition assistance based on *financial need* may request more information about the application from their instructor. You can also check with your schools’ parent organization, counselor or ENGR 102 HS teacher for information about other types of financial assistance.

My parent works for the University, can I use Qualified Tuition Reduction (QTR) to get discount on ENGR 102 HS tuition?

Yes, family members of UA, NAU and ASU employees will typically get a discount on ENGR 102 HS tuition. This will amount to considerable savings and is worth setting up if you qualify. *We do not have expertise in applying for QTR. Please contact Human Resources/Benefits at your institution for more details on how to apply for QTR and talk with the Bursar about any problems with applying your tuition discount.* You can find the UA QTR forms and instructions here: <https://hr.arizona.edu/employees-affiliates/benefits/educational-benefits>

Is there a payment plan for the \$496 ENGR 102 HS tuition?

If you have trouble paying the full tuition amount all at once, you have these options.

1. You can create a student account and pay half (\$250) of the amount due before the payment deadline. Then make payments on the remaining amount due. If the tuition bill is paid in full before the Bursar's late fee deadline you will not be charged any late fees. If you make payment after the late fee deadline, you will be assessed a late fee, but will be allowed to continue making payments towards the balance. However, your account may have holds placed on it until full payment is received.
2. You can pay full tuition with a credit card by the payment deadline - then make payments on the credit card. We realize this is not the best way, but it will give more time to pay the bill and you will not be hit with Bursar late fees, nor dropped from the course.

This link explains how to register for ENGR 102 HS, set up a student account and make a payment: http://www.engineering.arizona.edu/k12/k12_102_HS_enrollment
