Bachelor of Science in Architectural Engineering†
Department of Civil and Architectural Engineering and Mechanics

Program Educational Objectives

The Educational Objectives of the Civil and Architectural Engineering and Mechanics B.S. program at the University of Arizona are to produce graduates:

Objective 1: Technical Proficiency.
Building on fundamental knowledge, graduates should continue to develop technical skills within and across disciplines in architectural engineering and/or in closely related fields.

Objective 2: Professional Growth.
Graduates should develop and exercise their capabilities for life-long learning as a means to enhance their technical and non-technical skills.

Objective 3: Management Skills.
Graduates should develop and refine their knowledge and skills for management, communications, and professional ethics.
